Large corporations
and federal installations

**Across
Seven States**

Our mission

At TVA, our unique, long-standing mission drives and inspires us daily to pursue new ideas and innovative solutions to improve our service to you. Our mission is just as relevant today as it was nearly nine decades ago when Congress created TVA: harness the potential of the rich resources of the Tennessee Valley region to make life better for the people who call it home. The strength of TVA is its people...an experienced, talented team committed—each and every day—to improving the quality of life for the approximately 10 million people we serve.

Largest Public Power Provider

In the United States
